Try to live as a human being.

One who smokes is a rascal - miscreant

One who consumes alcohol is an idiot-goof

One eats non-veg food is an animal living in a human body.

People who are doing following five great sins

Telling lie – doing murder – stealing – consuming alcohol – lust  
will live in the hell.

Don't split the people in the name of  
caste, religion, race, language and country.

A person who splits the people of this world  
will not realize the purpose of the life

Athma is suffering from the pain of birth – pain of mind – pain of  
death. The real service to the Athma is to liberate from all these  
suffering. One should know himself (athma). Teaching about this  
to people of this world is divine donation.

# Divine oneness - compassion on soul.

Who are we? We are human beings! There are around 700 crores of people living in this world! There are many more other creatures living in this world! Do we know how to live this life? Our life is to help each other, live happily and lead a healthy life. Are we living like that? Many people are living like animals by cheating, threatening, telling lies and deceiving others. Is this the way to live this precious life?

Not only that, there are violence in the name of caste, religion, race and language. There are conflicts between the state governments in our country for water, electricity and power to rule. So many people are discredibly fighting for these mere reasons. Why?

There is no limit for the disaster created by the political parties, cinema, television and new papers to our country! There are many good news to be shared with the people. But these people are interested in

---

conveying the unethical, violent, inhuman and vulgar news. They broadcast only immoral news!

Each and every one in our country is responsible for the loss of morality in our country! Every human is responsible for the social wellness! Each and every human is part of this society. Everyone has their role in the wellbeing of our society. It's the duty of each and every man and woman. Nowadays attitude of people has changed, why should I care about the society? I don't care about others wellbeing. People should not have this attitude! They should not ignore their social responsibility.

If I lead a good life and liberate myself, only then my family, relatives, friends, street and town can lead a good life! One man can make the society a better place to live; similarly it can be destroyed by one person! Only fool says "I was spoiled due to the circumstances in the life"! A good human is one who does not become slave to the mind— feelings - emotions and lives carefully!

It's rare and very difficult to attain birth as human. It's rare to attain a birth without defects in the body, like blind, dumb and deaf. It's rare to make one's life spiritual and do penance (meditation). The rarest thing in the life

is to donate the knowledge of spirituality-gnana to others. If we do penance and donate this knowledge of soul-athma and God to others, gate in our body to see the God will open. This is the preaching on gnana graced by Lady Saint Avvaiyaar.

We have obtained human birth without any defects, so it's important to learn the knowledge of (self) Gnana! We should know about ourselves (athma) and God! Whatever we learnt in our school will not help in spirituality. It helps only to earn money! Saints said it's the pumpkin which is seen in the book as picture. It won't help to make food. Similarly education in the school helps only to earn money! We didn't take birth to earn money, live a luxury life and eat all unwanted things! Not to live a life by becoming slave of the mind!

Who am I? Why did I take birth in this world? Why am I living here? How to live a perfect life? Answer to all the questions is the "Spiritual education". Have we taken this birth to die? Is it not to live this life? One who helps others to know, understand and realize this (purpose of life) is GURU. After father and mother who are like God, guru is one who feeds/induce the intelligence and makes us to obtain gnana!

“Any technique without guru is of no use (ruin)!”  
“Crores of Karmic accumulation is cleared when guru sees the disciple!” Guru Brahma! Guru Vishnu! Guru Maheswara! Guru Sath Sath Para Brahma! It’s mandatory to obtain a guru for each and every human took birth in this world! One who obtains a guru will become real human! “When one surrenders to the holyfeet of guru, lord appears in the formless state” this is the teachings of avvaiyaar! Might I have ever forgotten to donate offerings to the guru? Might I have ever forgotten to honor a guru? Vallalar has preached significance of the Guru! If one reads the Manumurai kanda vaasagam written by vallalar will understand the importance of the Guru!

Whole world is in fear because of the terrorism, the reason being people have not obtained a good guru to know the real spirituality! A good guru is one who teaches about self/soul/spirit and God. Good guru tells about Gnana! He is called Gnana Guru! We have to know that **God is one** for this world; he is the divine grace light! We have to realize this! Have acceptance in all the religions! All human beings in this world are children of one mother-God! Then why we have this war and violence! Only

ignorant of this will involve in wars and violence! To obtain intelligence one has to seek a guru!

First we need to have good discipline! One should be pure in the body-mind and should not have any bad habits! Don't be in companion with bad people! Mother and father are the foreseen lord! It's very good to visit temples! We have to read and follow these advices and preaching!

*“Decorum’ gives especial excellence; with greater care ‘Decorum’ should men guard than life, which all men share” - Propriety of conduct leads to eminence; it should therefore be preserved more carefully than life.*

Next step is having good food for our body! God has created fruits vegetables for human beings to eat! The milk given by the cow is equivalent to the mother's milk! It's enough to have cereals and rice! We can live a happy life by eating them! Pure vegetarian food is the real food of human race! Only who eats vegetarian food will obtain the grace of God!

One who eats the animal flesh is another animal! Is it not? Are you not a human being? Can you eat non vegetarian food? What rights you have to kill an animal and eat? Consider all living beings as yourself; this is the teachings of Jesus, Prophet Mohamad, Vallalar and all

religions! If a human have not even thought of harming others, will obtain the grace of God. If you kill another living being, you will be killed by some other living beings! This is the truth! Sathya! One who planted the action will be rewarded with another action. All karmic accumulation will be rewarded one day! One has to experience all accumulations! No one can stop that! The salary of sin is death!

*Who slays nought,- flesh rejects- his feet before  
All living things with clasped hands adore.*

– Thiruvalluvar

Educated people please read this and change your mind! Transcend to a human being!

One lives with discipline and consumes pure vegetarian food is eligible to get the grace of God! “One who avoided killing and consumption of animal food come inside” This is the caption written in the entry of sathya gnana sabai established by Thiru Arut Prakasha Valallar Ramalinga Adigalaar! Hey human, one who eats animal food, drinks alcohol, smokes don't even try to visit vadalur! It is a sin!

Crowd gathered to protect Tamil people, crowd gathered to form a new state Telungana, One state government says they will not give water for other state Does anyone have sense-intelligence in these groups? Then we have conflicts in the name of caste, religion and race! If people consider all human as brothers and sisters, will there be any conflicts? Human has no intelligence at all. He has no clue about spirituality! Most of human have zero percent knowledge in the spirituality!

If people in this world celebrate the dead people, how will he get intelligence? Praise a Gnani – Siddha – who attained Deathless life! Read their preachings! Obtain a guru and develop your intelligence! For our inner wellbeing, saints and enlightened masters have written Bible, Quran, Vedhas, Bhagavad Gita, Upanisad, Thiru-Mandiram. Thiru-Vaasagam and Thiru Artupa. There are so many other spiritual teachings available in this world! To have better future in this world, Vallal perumaan invited people of this world to live a deathless life.

Vallalar established Dharma Saalai and fed food for people! Perfect! People who followed Sanmaargam nourished food for people in the name of vallalar! AnnaDhanam is done daily, all over the world by the

people of sanmaargam! It gives pleasure for me! These people say Jeeva Kaarunya means only GIVING FOOD! Ignorant people! Vallalar is the great spiritual repository of intelligence. Using this elite name people are doing ignorant work. These people feed ONLY food! Respected human, do you think vadalur gnani was incarnated in this world to preach people to feed food for others? Sanmaarkee please contemplate!

Jeeva kaarunya discipline is not only feeding food for others! Vallalar wrote and published a separate book on jeeva kaarunya! Please read that book first! First vallalar built Dharma saalai, later why did he establish Sathya Gnana Sabai? Have you ever thought about this? Why vallalar advised us "Don't miss to have the dharsan of Thai poosa jothi darsan!" What is the reason behind this? Have you contemplated on this? People of this country have good habit of hospitality! Food is not great thing in this world! We should not think about food. We should think to get rid of death – birth – death cycle. This is the reason for all suffering in our life. We have to contemplate and come out of this problem! People, don't eat food and waste life! You are approaching death! Find a way to get rid of this!

We took birth to live blissfully in this world; we have to follow the deathless way preached by vallalar! Vallalar not only preached, but also attained **divine light body and deathless life!** Vallalar is still appearing before us and gracing us and being a great spiritual companion! This is truth! Sathya!! Let's follow the path of the excellent siddha who lived and roamed with his physical body in Vadalur! Let us read his book Thiru-Arutpa! Let us read and follow the Jeeva kaarunya discipline to obtain deathless life! Let us also feed food for others! As an important activity we should donate the knowledge of spirituality to others! It's called Gnana Dhaana!

Why vallalar took birth in this world? 05-10-1823 in the Tamil month purataasi, star chitthirai, vallalar took birth in marudur located near Vadalur. His father name is Raamayaa and mother name is Chinnammai. He was fifth child of his parents! Vallalar lost his parents in the childhood! His elder brother took care of him. At the age of nine he was graced to sing by Lord muruga in kandha kottam Chennai. Later vallalar was graced by Chennai Thiruvottriyur Lord Thiyagarajar and Vadivudai amman by his greatness of songs. Later vallalar returned vadalur. In the large land area donated by the people of vadalur, he established dharma saalai in the year 1867

---

and sathya gnana sabai in the year 1872! The construction was done under supervision of vallalar.

Later he formed a way to obtain the jothi darsan in sathya gnana sabai! Till now no one in this world has constructed (established) a spiritual temple like sathya gnana sabai! In all other temples God is represented as stone in the physical form and people were praying that! This is at first step as bakthi! But vallalar is only gnani who wanted people of this world to know the gnana (spirituality). God is divine light! He wanted to show that symbolically as such! So he made a way to obtain jothi darsan in the sathya gnana sabai! The temple was constructed to symbolize our physical body! In the inner center of temple seven veils were placed. Jothi was placed behind the seven veils! Every month in the tamil star POOSAM, people are made to see the jothi after clearing (removing) the seven screens-veils. This jothi darsan is the inner experience when we do penance or gnana thavam!

Vallalar made a symbolic representation of our inner experiences in sathya gnana sabai. We should have jothi tharsan as our inner experience. When? Do penance or thavam. Vallalar wanted us to know this temple and have the same inner experience for all people in this world!

Also vallalar reiterated that people of this world should not miss the jothi dharsan on thai poosam! Do you know why? On that day morning sun rises in the east and moon sets on the west! In between sun and moon we can see the jothi tharsan in sathya gnana sabai! SUN – JOTHI THARSAN – MOON! This is our inner experience. This is state of Gnana! **Our right eye is sun, left eye is moon, meeting point of sun and moon is agni divine art/soul (athma).** Saints/siddhas told that in the location of soul we will have jothi darsan! Vallalar made this as temple externally in vadalur sathya gnana sabai! You will have this vision on Thai poosam day morning first jothi darsan! On that day jothi tharsan is shown many times, but this can be seen only on first tharasan! You can have this divine vision externally on the morning and become blissful! You are welcome to vadalur!

In the same way Lord being sun and moon are in our eyes, he is in the center of the head, below the top of your head and above the inner tongue as Jothi(divine light) and guiding us! Vallalar wanted everyone should know this secret of Gnana and clearly sung in the divine songs Thiru-Arutpa.

“Kai yara vilaa tha naduk kann puruva pootu kandu ; kali kondu thiranthu undu nadu naatu”

---

It's better if you open your center of the eyes from the qualified guru. Vallal perumaan tells this spiritual secret straight away to people of this world!

Vallalar sang 'I found sathya gnana sabai inside me'. For us to have the same inner experience vallalar established sathya gnana sabai and made arrangements for jothi tharsan!! What a compassionate heart for vallalar! He wanted each and every one of this world to have Gnana! So he expressed all the secrets to people of this world! Divine songs are Thiru Arutpa, Spiritual temple is sathya gnana sabai! Is there any spiritual philanthropist like this in the world? That's why devotees praised Ramalingam as Thiru Arutprakasha vallalar Ramalinga Adigalaar!

Why devotees called him as Arutprakasha vallalar? "Vaadiya payirai kanda pothu vaadinaar" means vallalar becomes sad by seeing the withered crops. He felt sad by seeing the sufferings of people in this earth! Vallalar is so compassionate, that he requested and prayed God for inner wellbeing of people of this world! He prayed to God to clear all sufferings and wanted to grace people of this world! He became so compassionate and had tenderness in the mind! He prayed God in the excessive love and compassion! He shed tears for this

transformation in human beings! Vallalar wanted all people to lead a blissful life! As result of his prayers and request Lord Arut-perum-jothi(Infinite grace light) gave the dharsan to vallalar. God had shown vallalar within himself! He had shown whole world to vallalar! He had shown the divine light! Made vallalar to realize the truth and graced him! As a result of this sathya gnana saba was established! People of this world have got benefitted! Gnana was shown to people of this world! Spirituality entered into this world!

With the grace of vallalar, this humble being (Gnana Sarguru SivaSelvaraj) giving Thiruvadi upadesam (preaching) and Thiruvadi deekshai(initiation) to enter in the pupil of eyes and have the jothi dharsan! Pupil of eye is only entry to athma. I decrypted the code words and secrets of all saints and published 35 spiritual books in Tamil! Three books are translated to English! Till now no one has done this rare work, with grace of vallalar this humble was able to do all these work! Do you know why? What is the goal of vallalar? All people in this world should attain deathless life! To achive that vallalar made this humble being as GURU. He is making me to do this! I don't know what virtue I had done!

Dear seekers, you might have visited many temples, don't plan to come to vadalur simply to see jothi. Don't see this as yet another temple. Don't consider it as tourist spot. You have to ponder why vadalur saint vallalar had established sathya gnana sabai and made us to see the jothi tharisanam, which is not like other temples! Contemplate on this! Having taken birth as human, which is rare, we need to attain the deathless life. Its goal of the life! We must first know that life we took in this world is not to attain death! If we seek the direction for this then there are many spiritual books in Tamil and other languages. These books will guide us! The spiritual knowledge are not directly told in many books. They are encrypted and hidden! To decrypt this, one needs to surrender to Gnana Sarguru(spiritual teacher) obtain preaching (upa desam) and Thiruvadi Deekshai(Spiritual initiation). Disciple needs to do penance!

Holy feet of God are our eyes! Right eye is represented as Sun-Siva- Tamil Letter Ah – Wheel (in lord Vishnu) – Number eight(8), Left eye is represented as Moon-Sakthi-Tamil letter Uh-Sangu – Number two(2). These are encrypted representation in the spirituality (gnanam). One needs to obtain the divine consciousness from guru's initiation. After obtaining initiation one needs

to do Thavam(penance)! One has to do the penance with great determination! Soul is located in the meeting point of the two eyes, at the center of the head, the athma jothi glitters there! Thiru Arut prakasha vallalar Ramalinga Adigalalar had shown his inner experience as jothi tharsan in the Sathya gnana sabai! What a compassionate heart for vallalar!? He is role model for the compassion and empathy! No other saint had told this like our vallalar perumaan!

The jothi tharsan that we see in the vadalur sathya gnana sabai glitters like gold, which is similar to the setting sun. To know this, have this as your inner experience, you have to meet Gnana sarguru living in thanga jothi gnana sabai Kanniya kumari and obtain Thiruvadi (holyfeet) preaching and Thiruvadi initiation(diksha)! Vallalar's last statement in mettu kuppam sitthi valaga thiru maaligai before he merge with lord Artuperum jothi(vast-grace-light) he instructed this to people of this world "I'm here now, I will enter into all the souls of this world"! Vallalar enter to your soul when you obtain initiation from gnana sarguru! He will grace you! diksha - Initiation is the event to allow vallalar to enter inside! No one will express with this much clarity!

The eligibility to obtain thiruvadi preaching and thiruvadi deekshai – being a human is only eligibility required to obtain the grace of God! Caste, religion, race, language and country these identifications are not required? It's important to eat only vegetarian foods! When one eats non vegetarian food, all his nerves and naadis will be spoiled. Non-vegetarian foods are enemies to spirituality! Vegetarian food is the food of Sanmaargam! One should not have any bad habits! You are welcome to kanniyakumari thanga jothi gnana sabai! Take bath in the junction of three oceans! Pray-surrender to Goddess Vaalai(mother of all souls) and come to Thanga Jothi Gnana sabai! Surrender to guru and donate the offerings to guru with pure heart! It is an important step in the spirituality. Guru can help only when you surrender with pure heart! Then you can obtain preaching and initiation in holy feet of God! Anyone can come here! Obtain Gnana – enlightenment! Then whole world is in your control!

One who considers all living souls as his soul (himself) and lives with pure heart will obtain enlightenment! In the present world, humanitarians who talks about human wellbeing are real hypocrites. Only these people eat chicken, goat, cow, animals that crawl

and birds! You don't show love/compassion to other living being, but how can you expect others to show compassion on you? Who will follow your words? You are slaughtering innocent animals! You and the people to whom you show love will be tortured! This is the rule of God! How can you expect compassion from butcher? Hey human! First you transform from state of animal to human! Then you become humanitarian! First transform! Then you can you can talk about humanity!

When you will compassionate on human beings? When you have compassion on soul, you can show love to all human beings. When love increased empathy is formed in you! Where there is empathy, the compassion will be emerged! One who has compassion is equal to God! Divine oneness in loving of souls is to show love to all living beings, seeing all living beings from ant to elephant as one!

“Evvuyirum thammuyir pole enni otthu urimaiyudavar yaavar avar sitradikke eval seyya vilainthen” sung by pure compassionate heart Thiru arutprakasha vallalar Ramalinga adigal! This means I serve to their feet, for the one who considers all living beings as his himself/soul! Then who is great in this

world? One who lives in this world by considering all souls as himself or his soul!!

Hey human with non-perishable soul, don't simply go to vadalur to see jothi darsan, eat food and donate food. Come vadalur to know the truth of yourself.

There is only one truth is in your body! The truth is your soul! Where is that? What is its form? Don't we need to attain that? Don't we need to know-realize that? Jothi darsan in sathya gnana sabai expresses the same! It explains the body – entry to soul – seven screens – soul.

This is not at all a new path! Generation after generation, in many yugas, all our saints and siddhas taught us the same path! This is the only divine path followed by all siddhas and saints! This is our old parama shiva! Vallalar also preached as Arut-perun-jothi!

Aathi guru for this world is Sri Dhatchinamoorthy! For many ages all siddhas and saints preached us to do open eye mediation. Asked us to do penance by keeping the eyes open! Penance should not be done with closed eyes! Enlightenment is possible only by open eye mediation! As a first step open your external eyes and look at guru! Guru feeds divine consciousness in your eyes

---

with his divine light! Then you have to do gnana thavam. When there is feeling in the eye lids won't close! The third eye (internal eye) will open only when you do thavam with open eyes! When third eye opens, you will get jothi tharsan. Vision of soul! Vision of THANGA JOTHI!

I have told all the divine-spiritual secrets which is never told before by anyone! Everyone should know the truth and attain gnana(enlightenment)! Let all living beings live in bliss! Union is compassion on souls spread all over the world!
